By March 31st 2014
Regular Registration:
After March 31st 2014
Conference:
July 21-23, 2014

Announcement and Call for Papers

We are pleased to inform you that CLAWAR 2014 will be held within the premises of the Poznan University of Technology, Poznań, Poland, during 21 – 23 July 2014. The conference will feature technical and social programs. The technical program will comprise plenary, regular and special oral sessions. The social part will comprise of opening ceremony, conference banquet, coffee/tea breaks, lunch, tours to local attractions and technical tours to research institutions.

Areas of Interest:

We invite papers in all areas relevant to mobile robotics. CLAWAR is a condensation of climbing and walking robots. The core areas are climbing, walking, flying and running robots with different kinds of locomotion and the technologies that support them. Wheeled and tracked platforms, in addition to legged machines are included. Supporting technologies include all the means that robots use to sense, model, and navigate through their environments and, of course, actuation and control technologies. Human interaction, including exoskeletons, prostheses and orthoses as well as service robots form increasingly active and important pertinent areas. See the conference web-site for a detailed list of topics included in the conference scope.

Laboratory Visit: 24th July 2014

Special sessions:

Please submit your proposals of special sessions to the conference secretariat (clawar2014@put.poznan.pl) and send a copy to Professor Gurvinder S. Virk (Gurvinder.Virk@hig.se). Each proposal should be no more than one A4 page in length and is to include title, aims/objectives, brief outline/scope, name and affiliation of the organiser(s).

Submission of Papers:

The technical program of the conference will feature Regular Papers and Special Session Papers. Final accepted papers will be limited to 8 pages in length (and nominal extra charges apply to additional pages) in the prescribed style format given in the paper submission page of the conference web-site. Papers can be submitted via the conference web-site or directly at:

<https://www.softconf.com/d/clawar2014/submit.html>

All papers will be peer reviewed, and all accepted papers will only be published in the conference proceedings if at least one author registers to present the paper. There will be conference CD and hard copy proceedings (published by the World Scientific Publishing Company). A selection of presented papers will also be recommended for possible publication in reputable international journals.
